

Central Intelligence for a Federal Agency

An AI Digital Transformation Strategy

A two-architecture, four-phase plan to make AI the connective tissue across PacifiCan's funding, claims, HR and program operations — built on Azure, governed for Protected B.

The premise, in one breath.

PacifiCan today runs on people, PDFs, and portals — capacity that does not scale with demand. The agency operates a portfolio of programs whose intake, adjudication, and reporting are largely manual.

Phase	Quarter	Focus
1	Q3 FY26	Foundations
2	Q1 FY27	Claims AI
3	Q3 FY27	Program ops
